“ Sorry for the loss of Don. I was reviewing our U,A, journal and read of his passing. I had the opportunity to work with Arden on several large projects in Rhode Island and Bristol Myers in Devens. Most of a successful project was listening to the concerns of our contractors. Don was the voice from the field and we worked together sometimes against the wishes of upper management only to provide the finish product before schedule and safely to the men and women involved.
I am a brother from Connecticut first and a construction manager that listened to the needs of my trades.
God Bless you Don and it was my pleasure to have known you and the rest of your crew.
To the family and friends...Don was the hest
