“ June was a good friend to my mother, Helen Stone. They had a deep and long-time friendship and spent time going to dinners, watching movies and attending Red Hat events over the years. As my mother aged, June made sure to include her, often picking her up or assuring she knew about various events so they could enjoy them together.

My mother's accelerating memory loss over the past few years has made it difficult for her to remain connected with June.

June was a lovely person and finding out she passed leaves me and my family members sad.

We are so very sorry we did not know sooner and could not attend the service.

Sending heartfelt condolences to June's family and wishing you all peace and comfort as you remember your loving times shared together.
