“ *I was diagnosed with multiple sclerosis 1 month after I turned 45. My grandma is 96 and had it since she was in her 20s. I have been on Copaxone, the first year was daily and now I am on 40 mg, 3 times a week. It made a tremendous difference for me. Although the fatigue is what really gets to me. When I do too much, I do start to feel weak. My MS got significantly worse and unbearable Last year, a family friend told me about Organic Herbal clinic and their successful MS TREATMENT, I visited their website ww w . organicherbalclinic. co m and ordered their MS Formula, i am happy to report the treatment effectively treated and reversed my Multiple Sclerosis(MS)), most of the symptoms stopped, I'm able to walk and eat well, sleep well and exercise regularly., I'm pretty active now and my attitude is extremely positive.*

“ *My Mother loved to laugh and Pat always rose to the occasion. When they were together, their laughter was infectious for all who were fortunate enough to be close by. I know they are both sharing that soul soothing happiness together once again, and it does my heart good to imagine them together again.*

“ *To my beautiful sister in law I loved so much for over 55 years. We shared so many memories. She loved her bingo and cards and was very good at it. She always won. Enjoyed cooking together for the holidays and all the family cook outs. She will be missed very much. Her nickname from us was Patricialeene which she loved. You are no longer suffering and are at peace with Jesus and all our loved ones. Carol xoxoxo*
