“ Thank you my dear brother for being there for everyone, always, without hesitation. I don't think a single one of us has ever heard you utter the word "no" when we asked for your help. We would call you, and your response was always the same "come pick me up". And sure enough, when we pulled up to get you-you were already outside...waiting. You were always able to fix whatever problems we were having, weather 5 minutes or 5 hours time didn't matter as long as you finished the job. Such a selfless man who never even asked or expected anything back, maybe just a pack of cigarettes if that. When we would have our family and friends outings/parties the first phone call I would receive the morning of was you asking to get picked up so that you could help with anything and everything. So to my yes man that didn't know the word no, the most reliable man I know when it comes to lending a hand, I hope you know how much you meant to me, to all of us... You will forever be missed may you R.I.P. Love you forever in my heart brother!
