“ *Billy.
You were a wonderful man that always was so kind and happy, no
matter how tired you were. A true example of caring more for others
than for yourself. God Bless You my friend. We will meet again.*

“ I would like to start by thanking my father for being a great father and Grandfather. His grandkids loved him and he loved his grandkids. I wish they spent more time with him. Sad thing about time you never know how much time you have, tomorrow is never promised. My father was a great man and has been there for me my whole life. Unfortunately I've always hated pictures and I don't have photos of things we've done but I will always have the memories. 11 years ago when my mother passed away, I had people around me but my father was the one truly there to comfort me. Then when my life had the rug pulled out from under me years later, again my father was there for me. No matter how big or small he was there my whole life. Now the hole in my heart got bigger. That's a hole that will never fill. Losing a parent is a pain that never goes away you just learn to swallow the pain and carry on. My father worked hard his whole life and now he can rest. RIP dad I love you more than you ever knew. Life isn't going to be the same without you. I'm very thankful for my girlfriend Shyan she has been my rock since receiving news of my father's passing. I would like to thank Kathy C. For being there for my father, he loved you and I appreciate everything you've done

Hi, I know you don't know me, but your father was a very big part of my childhood and a good part of my adult life. Your father was a one of a kind man who made my husband the man he is today. I am heartbroken to hear of the loss of your father. There is no one else on this earth as wonderful as your father. I wish that I had known sooner I would have been at his services. My thoughts and prayers are with you and your sister. He had such wonderful things to say about the two of you, I almost feel like I know you know it's not but I'm very sorry for your loss
